H.E. Mrs. FATIMA MAADA BIO Message

To fulfil your dream you must first have a dream. Working towards your dream will not be easy, and it is more difficult if you are a woman. The good news is; it is possible to achieve your dreams, with determination and perseverance.

In Africa, making sure our children achieve their goal is a concerted effort, of every individual, and various organisations both government and non-governmental organisations. Human capital development is key to sustainable development. Human Development can take many forms. It can be done through coaching, continuing education, job training, leadership training, mentoring, personality assessments, psychometric training, workshops and other means. Every sector must be actively involved and it must be a holistic approach.

In Sierra Leone the government has instituted free and quality education for both primary and senior secondary schools, included in the package is free school feeding and healthcare for children . My office has also launched the free Sanitary pads for all school going girls in Sierra Leone. Girls miss out on school because of their menstruation cycle, so my office have launched the free sanitary pads initiative to supply pads to girls in a pack that will last them for a year. The goal is to keep our girls in school and keep them from harms-way.

The future is bright as we empower our women to be equal partners in development.

H.E. Mrs. FATIMA MAADA BIO
First Lady of the Republic of Sierra Leone
Ambassador of Merck More Than a Mother

Dr. Rasha Kelej MESSAGE

“As the CEO of Merck Foundation and as an African woman, I am very proud to introduce this story to emphasize the importance of Girl Education. The story of a young girl called Gitta.

Gitta represents our African girls who struggle for their education every day. I strongly believe in girl education. When Girls are educated, their countries become more powerful, stronger & prosperous.

Education is the only thing that no one can take away from you. So, for all families out there, support your girl education like what happened in this story. Let's join hands to help them to reach their potential and advance our Africa.

I realize there's need for more support as there are many brilliant girls out there who are struggling financially and socially to meet their educational needs. Therefore, we started “Educating Linda” pan African program which is going to be tailored for each country to contribute to the future of these girls as part of “Merck More Than a Mother”. I strongly believe that empowering women starts with education, to enable them to be healthier, stronger and independent.

I hope this story would inspire every girl to fight for her right of education and encourage our communities to support education of young unprivileged but brilliant girls, so that they can reach their potential and pursue their dreams.”

Senator, Dr. Rasha Kelej
CEO of Merck Foundation
Member of the Egyptian Senate (2020-2025)
One of the 100 Most Influential Africans (2019, 2020)
President of Merck More Than a Mother

One beautiful morning, in a city so colorful, a young lady named Dr. Gitta drove slowly down the road across the quiet street. Everything looked lovely.

Dr. Gitta was heading to a small village, far away from the city.

Gitta had been invited to give a motivational talk at a school in her village.

Gitta has won a Nobel prize in science this year for her achievement. She is very happy and proud.

She reached the school in due time. The calmness of the day was wonderful. Everything was good.

Dr. Gitta was greeted by the Headmaster of the school and he assured her that everyone was waiting for her.

Hello Dr. Gitta, welcome to our school.

Thank you, Sir, I am glad to be here.

He then took Gitta to meet the students.

The Headmaster of the school welcomed everyone in the room.

Please, you are welcome to inspire all of us.

Thank you, I will be very glad if I can.

The moment we have all been waiting for has come.

Let us all join together to welcome Dr. Gitta.

Let me tell you a story of a young girl, whose name I will reveal later.

After greeting them, Gitta proceeded by telling them a story.

Everyone kept quite and listened to Dr. Gitta as she began the story. All the students really wanted an inspiration.

Please Dr. Gitta, tell us anything, we want to be inspired to become like you.

She narrated.....
Once upon a time, in a village
so far away, there lived a young
intelligent girl who stayed with
her family.

My dear children, when
did they say you are
going back to
school?

We
are going
back tomorrow.

The
holiday is
surely over

When I finish school
and get a job, I will
get all of us out of this
poverty.

And I wish to
change the
community
through Scientific
inventions.

My dream
is to study hard
and become a
Scientist.

The young girl had a
dream at a young age ...

And I wish to
change the
community
through Scientific
inventions.

I need to hurry up or else I shall be late for school. Oh! and I have to do some other work at home... I am a girl, I should be responsible like my mother.

Every morning, before going to school, the young girl and her peers walked a long distance to fetch water. The whole village did not have pipe water, they used water from the river.

I don't know if it's right but that's my life.

As a girl, I need to work twice as hard as boys.

My brothers can't help, they are boys.

After doing all the work, she would join her brothers to go to school.

Lets hurry up, we are late for school.

Yes you are right.

The Teacher forgave them for being late, he also thought about a solution.

The Teacher approached the Leader of a local NGO and convinced him to build a well in the village.

At the young girl's home...
Food was a problem because
her family was poor and they
had so many children. Their
parents were running out of
answers.

Please be patient, we know
you are hungry. Your father
is looking for a solution.

I
am going
out for a few
hours...

Dad...
Mom... I am
hungry.

Let's patiently wait for your father. He will come back with something.

Let me see if I can get something...

But mom, when shall we get out of this poverty?

I am also hungry. I want food.

Just wait for me, I will be back as soon as I get something.

Their father went to a cafeteria to meet a friend.

Hello
Foday, can I talk to you for a minute?

Hello Kallon! No worries at all, what do you want to tell me..

Foday, I need to borrow some money from you.

Oh!
I don't think I will be of any help. I don't have any money.

As Kallon and Foday were conversing, Chief Ali, one of the richest men in the village was coming to the same cafeteria. Chief Ali was so rich that he moved around with a bag full of money. Everyone wanted to be friends with Chief Ali because he had what they wanted: Money!

Meanwhile... Kallon was waiting patiently at the counter...

Chief Ali made himself clear..

Foday explained more...

After celebrating to their agreement, Kallon was given bundles of money to take home and prepare for the dowry of his daughter which would be brought the next day.

I believe, I made the right decision giving my daughter to Chief Ali.

Let me sip my soda, if it finishes, I will buy another one. I now have a lot of money.

Kallon thought he had made a very good decision but he was giving away a ten year old in marriage.

Take this money and buy food for every one.

At home... Kallon's wife was astonished to see her husband with a lot of money.

??

The young girl didn't know that her father had betrayed her rights; her future.

Are you serious? Your sister is too young to be someone's wife. She is supposed to be in school with us.

Abu's colleagues believed they were making the right decision to report the issue to their school Teacher.

Does anyone see where the Teacher is standing?

I can see him. There he is, let's go.

I can see my Teacher.

But guys, I don't want to sound like I am reporting.

Can we find a good way of reporting this? Otherwise my father will kill me.

Don't worry Abu.

I know how to say it. Don't worry, let's do this.

They explained everything.

That's why she didn't come to school today.

It's absurd!

Are you guys serious?

Yes we are, and the man who will marry her is bringing the dowry today.

Now that's serious.
Let's hurry up before something stupid happens. Let's go and stop this madness. No underage girl is supposed to be given in marriage.

You are right Teacher. Very right.

Let's do this for her future and the future of all of us

You know that she is a very bright student. Actually one of the best I have ever seen. There is no way someone should destroy her future.

The school Teacher and his students went to Abu's home to try and stop his father from giving his sister away.

You really made the right decision to come to me.

Meanwhile someone else was going to the girl's house.

It was Chief Ali ... He had the dowry.

Chief Ali, is that you? What are you doing here?

I don't understand this.

Kallon immediately came out, he brought his daughter.

The village Chief and his secretary immediately came...

This nonsense is punishable by law. Let me hope you are all joking. Child marriage is a crime.

I think, I have to reconsider and ask for forgiveness, I dont want anything bad to happen.

Are you really giving away that young girl ?

What about Chief Ali??

Thank God!

Thank God, her father has decided to reconsider his-poor decision.

This was going to kill your daughter's future. You should feel ashamed.

I had fear of losing my dream of becoming a Scientist.

Chief Ali, you should abstain from this barbaric habit

I didn't know the magnitude of my mistakes...

I am supposed to take Chief Ali and Kallon to my office to make a statement for this crime.

They should be punished to serve as an example to other parents who would do the same.

Let's go... I am not leaving you here. You are supposed to pay for this crime.

I am really sorry, forgive me.

Please forgive me, I now understand the seriousness of my crime. I will never repeat it, believe me.

Take your money back. This is all I have left. You can come back when she is old enough.

Keep it, I know you needed it. I will take this as a lifetime lesson. Never take an underage for a wife. It is a crime.

Guys, thank you for saving my life. I will never forget this for the rest of my life.

Wow! We did it.

You're welcome.

They all went back to school together. They were very happy.

Go to class and study, no one should destroy your future, not even your parents.

Let's go and study, let's pursue our future.

What we did today will change the way some parents treat their children especially girls.

The young girl went to her class, sat on her desk and and wrote her name on it. She promised herself to become whatever she wanted to become in the future; a Scientist.

I will honor this day by studying hard and becoming a Scientist.

Wow! what a story. I wonder if it really happened.

She then went on and revealed the young girl's name

That young girl is me, I sat on this desk and wrote my name on it; Gitta

Every one stood up to applaud Dr. Gitta

Thank you. I believe that you all have potential to be what you want to be.

WOW!

WOW!

THE END

EDUCATING GITTA

Gitta, a young girl, born in a remote village nearly lost her right to education and her nation nearly lost an award winning Scientist. Read the book for the full story.
