## **H.E. MRS. AUXILLIA MNANGAGWA MESSAGE**

Child marriage is a global problem of which Zimbabwe is not spared. Girls are married before they reach the age of 18 years. The Zimbabwe Multiple Indicator Cluster Survey of 2019 showed that it is at 32.6%. This has serious consequences for the life of the girl child. Problems range from pregnancy related complications, psychological and lack of economic independence. The Child Marriage infringes on rights of the child and deprives them of a chance to earn an education, and therefore do not have a decent life.

As The First Lady of Zimbabwe, and as Patron of Angel of Hope Foundation I will continue to fight for an end to Child Marriages. I will lead from the front to fight cultural, economic and religious factors which are the main drivers of child marriages. The Constitution stipulates that "no person may be compelled to enter into marriage against their will " and calls on the State to ensure that " No children are pledged into marriage". There is no room for child marriages and forced marriages in Zimbabwe. I Thank You.

## **Dr. Rasha Kelej MESSAGE**

“As the CEO of Merck Foundation and as an African woman, I am very proud to introduce this story to emphasize the importance of Girl Education. The story of a young girl called Rujeko.

Rujeko represents our African girls who struggle for their education every day. I strongly believe in girl education. When Girls are educated, their countries become more powerful, stronger & prosperous.

Education is the only thing that no one can take away from you. So, for all families out there, support your girl education like what happened in this story. Let's join hands to help them to reach their potential and advance our Africa.

I realize there's need for more support as there are many brilliant girls out there who are struggling financially and socially to meet their educational needs. Therefore, we started “Educating Linda” pan African program which is going to be tailored for each country to contribute to the future of these girls as part of “Merck More Than a Mother”. I strongly believe that empowering women starts with education, to enable them to be healthier, stronger and independent.

I hope this story would inspire every girl to fight for her right of education and encourage our communities to support education of young unprivileged but brilliant girls, so that they can reach their potential and pursue their dreams.”

One beautiful morning, in a city so colorful, a young lady named Dr. Rujeko drove slowly down the road across the quiet street. Everything looked lovely.

Dr. Rujeko was heading to a small village, far away from the city.

Rujeko had been invited to give a motivational talk at a school in her village.

Rujeko has won a Nobel prize in Science this year for her achievement. She is very happy and proud.

She reached the school in due time. The calmness of the day was wonderful. Everything was good.

Dr. Rujeko was greeted by the Headmaster of the school and he assured her that everyone was waiting for her.

Hello Dr. Rujeko, welcome to our school.

Thank you, Sir, I am glad to be here.

He then took Rujeko to meet the students.

Thank you, I will be very glad if I can.

Please, you are welcome to inspire all of us.

The Headmaster of the school welcomed everyone in the room.

Let us all join together to welcome Dr. Rujeko.

The moment we have all been waiting for has come.

Let me tell you a story of a young girl, whose name I will reveal later.

After greeting them, Rujeko proceeded by telling them a story.

Everyone kept quite and listened to Dr. Rujeko as she began the story. All the students really wanted an inspiration.

Please Dr. Rujeko, tell us anything, we want to be inspired to become like you.

She narrated.....  
Once upon a time, in a village  
so far away, there lived a young  
intelligent girl who stayed with  
her family.

My dear children, when  
did they say you are  
going back to  
school?

We are going  
back tomorrow.

The  
holiday is  
surely over

When I finish school  
and get a job, I will  
get all of us out of this  
poverty.

And I wish to  
change the  
community  
through Scientific  
inventions.

My dream  
is to study hard  
and become a  
Scientist.

The young girl had a  
dream at a young age ...

I need to hurry up or else I shall be late for school. Oh! and I have to do some other work at home... I am a girl, I should be responsible like my mother.

Every morning, before going to school, the young girl and her peers walked a long distance to fetch water. The whole village did not have pipe water, they used water from the river.

I don't know if it's right but that's my life.

As a girl, I need to work twice as hard as boys.

My brothers can't help, they are boys.

After doing all the work, she would join her brothers to go to school.

Lets hurry up, we are late for school.

Yes you are right.

The Teacher forgave them for being late, he also thought about a solution.

The Teacher approached the Leader of a local NGO and convinced him to build a well in the village.

After a few months, the well was up and running and the whole village was rejoicing.....

Thanks a lot for honoring your promise.

It is our pleasure to fulfil our obligation .

I can't thank you enough.

This water is very clean.

Yeah..

Wow... I want to drink it.

We shall never be late for school again....

I am glad I won't go back to that river. It's too far.

I hate being late for school. This well will help the entire village. The water is also so refreshing.

At the young girl's home...  
Food was a problem because  
her family was poor and they  
had so many children. Their  
parents were running out of  
answers.

Please be patient, we know  
you are hungry. Your father  
is looking for a solution.

I  
am going  
out for a few  
hours...

Dad...  
Mom... I am  
hungry.

Let's patiently wait for your father. He will come back with something.

Let me see if I can get something...

But mom, when shall we get out of this poverty?

I am also hungry. I want food.

Just wait for me, I will be back as soon as I get something.

Their father went to a cafeteria to meet a friend.

Hello Mukwati, can I talk to you for a minute?

Hello Munhamo! No worries at all, what do you want to tell me..

Mukwati, I need to borrow some money from you.

Oh! I don't think I will be of any help. I don't have any money.

As Munhamo and Mukwati were conversing, Ndyire, one of the richest men in the village was coming to the same cafeteria. Ndyire was so rich that he moved around with a bag full of money. Everyone wanted to be friends with Ndyire because he had what they wanted: Money!

Meanwhile...Munhamo was waiting patiently at the counter...

Ndyire made himself clear..

Mukwati explained more...

Ndyire decided to talk to Munhamo himself.

I am an honest man, I will repay you your money.

Mukwati, you said you trust your friend Munhamo?

Munhamo is a family man, he can be trusted.

He has children to look after.

I would give you my daughter as a wife if she was old enough, I really need help.

I like that! Give me your daughter and I will give you money. I don't care if she is young.

Then so be it, come tomorrow and take her.

But you will have to pay cows as dowry for my daughter.

Let's shake hands for my new bride.. I dont know you Munhamo but I believe you are a good man.

I believe this is a good outcome of a conversation between gentlemen. Let's celebrate it.

I believe our future together will be better. You will be my son-in- law. You know!

After celebrating to their agreement, Munhamo was given bundles of money to take home and prepare for the dowry of his daughter which would be brought the next day.

I believe, I made the right decision giving my daughter to Ndyire.

Let me sip my soda, if it finishes, I will buy another one. I now have a lot of money.

Munhamo thought he had made a very good decision but he was giving away a ten year old in marriage.

Take this money and buy food for every one.

At home... Munhamo's wife was astonished to see her husband with a lot of money.

??

The young girl didn't know that her father had betrayed her rights; her future.

The following morning...

Are you serious? Your sister is too young to be someone's wife. She is supposed to be in school with us.

Farai's colleagues believed they were making the right decision to report the issue to their school Teacher.

Does anyone see where the Teacher is standing?

I can see him. There he is, let's go.

I can see my Teacher.

But guys, I don't want to sound like I am reporting.

Can we find a good way of reporting this? Otherwise my father will kill me.

Don't worry Farai.

I know how to say it. Don't worry, let's do this.

They explained everything.

That's why she didn't come to school today.

It's absurd!

Are you guys serious?

Yes we are, and the man who will marry her is bringing the dowry today.

The school Teacher and his students went to Fara's home to try and stop his father from giving his sister away.

It was Ndyire...  
He had the dowry.

Ndyire,  
is that you? What  
are you doing  
here?

Munhamo immediately came out, he brought his daughter.

The village chief and his secretary immediately came...

This nonsense is punishable by law. Let me hope you are all joking. Child marriage is a crime.

I think, I have to reconsider and ask for forgiveness, I dont want anything bad to happen.

Are you really giving away that young girl ?

What about Ndyire??

Thank God!

This was going to kill your daughter's future. You should feel ashamed.

I had fear of losing my dream of becoming a Scientist.

Thank God, her father has decided to reconsider his-poor decision.

Ndyire, you should abstain from this barbaric habit

I didn't know the magnitude of my mistakes...

I am supposed to take Ndyire and Munhamo to my office to make a statement for this crime.

They should be punished to serve as an example to other parents who would do the same.

Let's go... I am not leaving you here. You are supposed to pay for this crime.

I am really sorry, forgive me.

Please forgive me, I now understand the seriousness of my crime. I will never repeat it, believe me.

Take your money back. This is all I have left. You can come back when she is old enough.

Keep it, I know you needed it. I will take this as a lifetime lesson. Never take an underage for a wife. It is a crime.

Guys, thank you for saving my life. I will never forget this for the rest of my life.

Wow! We did it.

You're welcome.

They all went back to school together. They were very happy.

Go to class and study, no one should destroy your future, not even your parents.

Let's go and study, lets pursue our future.

What we did today will change the way some parents treat their children especially girls.

The young girl went to her class, sat on her desk and and wrote her name on it. She promised herself to become whatever she wanted to become in the future; a Scientist.

I will honor this day by studying hard and becoming a Scientist.

Wow! what a story. I wonder if it really happened.

She then went on and revealed the young girl's name

Every one stood up to applaud Dr. Rujeko

Thank you. I believe that you all have potential to be what you want to be.

That young girl is me, I sat on this desk and wrote my name on it; Rujeko

WOW!

WOW!

THE END

## **EDUCATING RUJEKO**

Rujeko, a young girl, born in a remote village nearly lost her right to education and her nation nearly lost an award winning Scientist. Read the book for the full story.
